

Foot and Ankle Joint

Focus

The Deutsche Assoziation für Fuß und Sprunggelenk [German Association for the Foot and Ankle Joint] (D.A.F.) deals with the diagnosis and treatment of congenital and acquired disorders of the foot and of the ankle, in addition to injuries and their after-effects.

The aim of the Association is to exchange experiences, to train upcoming, young doctors, to organise conferences and congresses, and to publish scientific publications in our journal "Fuß und Sprunggelenk" [Foot and Ankle].
